

Real Wood Veneer Shelves and Cabinets – Nature’s Fingerprint

Please be aware...

- ❑ *That we use only grade A1 wood sheets to manufacture your shelving and wall unit components; the finest grade available! It may take a little longer to ensure you receive the best quality.*
- ❑ *That we finish each panel with 2 coats of the finish you have selected.*
- ❑ *That no two pieces of your wall unit will look the same, this is the beauty of real wood.*
- ❑ *That each piece of your wall unit will accept the finish differently, this is the beauty of real wood.*
- ❑ *That color, tone and grain will be different on each and every component of your wall unit; this is the beauty of real wood.*
- ❑ *That like fine furniture, the wood surface can be easily scratched, chipped or dented if subjected to sufficient force, this is one of the tradeoffs of real wood.*
- ❑ *Like fine furniture, the real wood surface should be cared for occasionally, we recommend pledge and a soft cloth, no water!*

We want you to be pleased with your purchase and aware of the strengths and shortcomings of using real wood to manufacture your shelves and cabinets. Although stunningly beautiful, real wood products have a character and appearance that reflect the beauty of Nature’s Fingerprint. We ask that you acknowledge this as a part of our commitment to the success of your project.

Infinite Storage Solutions, Inc.

555 N. El Camino Real A-400

San Clemente, CA 92672

(949) 366-0780

Unless another stain color is specified, we will apply two hand rubbed coats of the Minwax Wood Finish Stain, Natural 209.
